

### Round 3

This was a late round lasting well into the evening.

Ifan faced a Polish 2026 and Hugo a Swiss 2155. Both these games went to the wire and were very competitive. Ifan and Hugo had chances to win or draw but ultimately came up short at the end, at past 10pm, after over 5 hours of play.

Both boys are learning from the experience and improving their play round by round. They can see the advantages of a larger delegation in terms of camaraderie, preparation and coaching, but are hoping to join the Scottish, Irish and at least one of the English teams for football and bowling later in the week.
